WELCOME TO THE

REFRESHING

WORLD OF IW

International Water & Wellness (IW) is a young, dynamic company founded in Spain by a team of pragmatic perfectionists with a combined experience of over 40 years in the industry. With a clear vision of bringing change and innovation. They set out to explore every opportunity to create products with a unique personality combining elegance, comfort and quality of life into every piece meticulously designed and manufactured. IW has fast become a symbolic brand between architects and designers, taking them on an exclusive journey of bespoke creation and excitement, adapting to their needs and moulding the product to what is required, which is creating spaces of serenity and calm reflecting luxury and practicality.

Escape *REALITY*
& *DISCOVER*
YOUR
MOMENT
OF CALM

A life *STYLE* STATEMENT

IW elevates any bathroom interior
by redefining luxury and transforming it
into a lifestyle statement.

PHILOSOPHY

OUR COMMITMENT

IW has become a reference point for bathroom design and manufacturing, focusing not only on quality and commitment to sustainability but also on the firm belief that customer care before, during and after is fundamentally essential. For this reason, they are committed to having a hands-on approach which has been embedded into the company's philosophy that first and foremost is the client, however big or small.

An OASIS of
SERENITY

Let's *IMAGINE*
TOGETHER

and create a space for your well-being

SHOW your
PERSONALITY

For *IW*, it's about
CULTURE
a sense of well-being

and the values we share, aligning ourselves
with the fast-evolving market and constantly redefining
the meaning of luxury and attainability by being
at the forefront of innovation, design and cost-effectiveness.

A new *VISION*, a new PURPOSE

We are committed to the global movement towards
sustainability and the circular economy.
It is our priority to make this a driving force within IW.

WeAre360°

A new *CHALLENGE*: CIRCULAR ECONOMY

We are all affected by natural disasters: droughts, floods, hurricanes, wildfires, phenomena that shake the planet and destroy its resources; It is a reality that we are experiencing, and that also affects the economy in general.

The current model of our economy (linear system: extraction, manufacture, use and disposal.) has reached its limits; signs of depletion of natural resources and fossil fuels are beginning to be seen. We need a new model, a shift towards an efficient economy in the use of resources and low carbon emissions; this new model is the circular economy.

The circular economy proposes a new model of society that uses and optimizes the stocks and flows of materials, energy and waste, and its objective is the efficiency of the use of resources - by manufacturing, using and recycling at the end of its lifecycle.

The circular economy helps us improve financial results while reducing the use of resources; helps us identify and create new opportunities for economic growth and boost innovation and competitiveness; fights against natural disasters and limits the environmental impacts of the use of resources to guarantee the security of the supply of essential resources such as water.

WATER is a limited
resource that needs

TO BE
PROTECTED
AND USED
SUSTAINABLY

Due to the continuous growth of its demand for good quality and sufficient quantities for all uses, the need arises to take measures to protect the waters and thus guarantee its sustainability. This challenge is everyone's commitment; this is IW's commitment.

Our *COMMITMENT*: REUSE, RECYCLE AND SAVE WATER

Most of the metal we use for our taps and mixers comes from salvaging and recycling products, a substantial effort to reuse for the sake of sustainability within the framework of a true circular economy.

IW taps and shower controls contribute to saving water and energy by controlling the water flow and quickly regulating the temperature, and keeping it constant.

We *ARE* 360°

We believe that caring for the planet is a commitment for all. At IW, we commit ourselves through the development of innovative products that lead to saving energy and water; We believe that if we all act with commitment, where every little bit counts, if we all do it, we will be building a better world for generations to come.

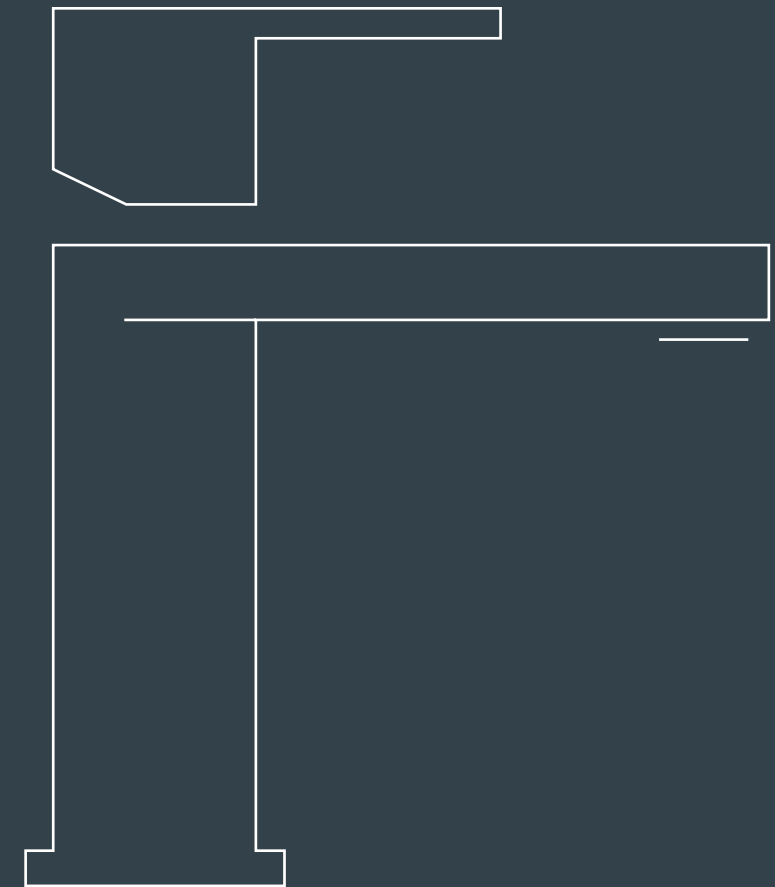

Taps

Classical,
TRADITIONAL &

Taps, and more Taps, the lifeline for all bathrooms, classical, traditional and contemporary, designed thoughtfully, chosen wisely adds the perfect touch to your bathroom and kitchen.

Plumbing

Always overlooked but always a vital product to round off that perfect lifestyle statement. With the correct plumbing item, you can add the cherry on top and create the faultless bathroom that we all desire.

A required necessity

Plumbing

E13

Square tile-in shower drain,
available in stainless steel 304 & 316.
13×13cm (5”x5”) with 5cm (2”) drain.

E13-304-NAT / E13-316-NAT

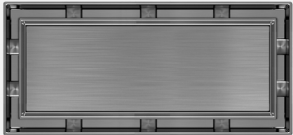

● NATURAL

E30

Linear tile-in shower drain,
available in stainless steel 304 & 316.
7,6×30cm (3”x12”) with 5cm (2”) drain.

E30-304-NAT / E30-316-NAT

● NATURAL

E60

Linear tile-in shower drain,
available in stainless steel 304 & 316.
7,6×60cm (3”x24”) with 5cm (2”) drain.

E60-304-NAT / E60-316-NAT

● NATURAL

E80

Linear tile-in shower drain,
available in stainless steel 304 & 316.
7,6×80cm (3”x31”) with 5cm (2”) drain.

E80-304-NAT / E80-316-NAT

● NATURAL

E90

Linear tile-in shower drain,
available in stainless steel 304 & 316.
7,6×90cm (3”x35”) with 5cm (2”) drain.

E90-304-NAT / E90-316-NAT

● NATURAL

F13

Square shower drain,
available in stainless steel 304 & 316.
13×13cm (5”x5”) with 5cm (2”) drain.

F13-304-NAT / F13-316-NAT

● NATURAL

F30

Linear shower drain,
available in stainless steel 304 & 316.
7,6×30cm (3”x12”) with 5cm (2”) drain.

F30-304-NAT / F30-316-NAT

● NATURAL

F60

Linear shower drain,
available in stainless steel 304 & 316.
7,6×60cm (3”x24”) with 5cm (2”) drain.

F60-304-NAT / F60-316-NAT

● NATURAL

F80

Linear shower drain,
available in stainless steel 304 & 316.

Sinks

An essential part of the bathroom, we like to think that our Ceramic and LSC (Liquid Stone Composite) Sinks meet even the most demanding requirements.

An essential part of the bathroom

Sinks

LSC Collection

Our LSC (Liquid Stone Composite) is made from stone resin and is free of any toxic material, making it an environmentally-friendly choice. Durable, stain-free and 100% restorable it's the perfect addition to any bathroom that requires that luxurious touch to complete the setting.

Bathtub

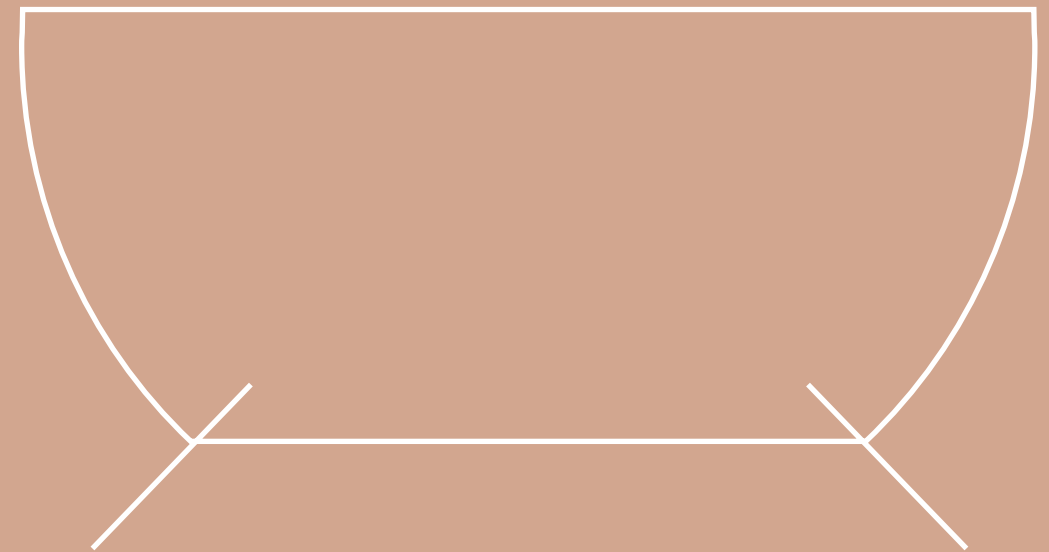

We envision that the bathroom is an essential room in any setting and for this reason, we have created a collection of freestanding tubs in our famous LSC (liquid stone composite) & acrylic finish so that you can give that unique look to your bathroom.

Unique look
to your

bathroom

Bathtub

LSC Collection

Our LSC (Liquid Stone Composite) is made from stone resin and is free of any toxic material, making it an environmentally-friendly choice. Durable, stain-free and 100% restorable it's the perfect addition to any bathroom that requires that luxurious touch to complete the setting.

Warranty

What do we warranty.

Our products reflect our company’s beliefs. It’s a way how we can communicate with the user, and we believe in achieving the ultimate product, which is functional and yet beautiful in design.

The highest compliment is a referral, and we strive to make sure that every meticulously produced product complies with the international standards and is tested before it leaves our facilities. This is why we comfortably guarantee our products for up to ten years.

To further reassure our products we work closely with SGS the internationally renowned inspection agency, reducing risks in international export and eliminating any doubt a new client may have.

The IW warranty covers repair and replacement of all of its products. If within the applicable warranty period the covered product is proven to be defective, IW will, at its discretion, repair or replace such products provided that repair or replacement does not include installation costs, labor charges, or other incidental or consequential costs. If the products are used commercially the foregoing warranty is limited to a period of three (3-10) years, depending on the product type, from the date the product is purchased. All warranty claims must be made within the warranty period. Products must be maintained and cleaned in accordance with the care or cleaning instructions, cleaning practices including without limitation the use of cleaners containing abrasive cleansers, ammonia, bleach, acids, waxes, alcohol, or solvents will void this warranty. Damage to a product caused by accident, misuse, or abuse is not covered by this warranty. Gloss reduction, scratching, staining, and alkaline etching of the finish over time due to use, cleaning practices, water, or atmospheric conditions are not manufacturing defects but are indicative of normal wear.

IW warrants to the original purchaser or initial homeowner that all IW plumbing and accessory products installed in a residence and used solely for residential purposes will be free of mechanical defects for as long as the original purchaser or initial homeowner continues to own and maintain the residence where the products are initially installed.

IW warrants to the original purchaser or initial homeowner that the finish of all IW plumbing and accessory products installed and used solely for residential purposes will be free from manufacturing defects in materials and workmanship for a period of ten (10) years from the date of purchase of the products, If the finish of the product is Brushed Nickel, Black Matt Chrome, Graphite, Brass, Gold, Rose Gold & Stainless Steel the foregoing warranty is limited to a period of five (5) years from the date on which the product is purchased.

IW warrants to the original purchaser that all IW vitreous china, and water closet internal components installed in a residence and used solely of residential purposes will be free from manufacturing defects in materials and workmanship for a period of five (5) years from the date of the purchase of products so long as the purchaser continues to own and maintain the residence where the products are initially installed.

All our products comply with ASME, CSA & BS EN standards.

The warranty does not apply to:

- Damage caused by normal wear and tear.
- Products which have been repaired, altered or modified in any way by the original purchaser or any person other than IW, unless previously authorized in writing by IW.
- Products repaired with parts other than original IW service parts, unless previously authorized in writing by IW.
- Products which have been installed, used, maintained or stored other than in accordance with the care and cleaning guidelines, installation guidelines and or product specifications provided to the purchaser by IW.
- Products which have been used for purposes other than or in a manner contrary to the intended and normal use.
- Products that have been used outdoors.
- Products which have been damaged as a result of misuse, negligence, freezing, accidental or faulty installation or maintenance.
- Products damaged by the effects of dirt, salt water, air, hard water, lime scale, or abrasive or aggressive cleaners.
- Products damaged from exposure to extremes of high or low humidity and/or to rapid temperature change as well as variations in appearance which result from the normal expansion and contraction of wood as it responds to climatic changes in the home.
- Products installed in a manner that does not comply with local code requirements.
- Products sold “as is” and from store displays.

Care & Maintenance

IW Brassware.

The majority of products can be cleaned with warm water, mild soap, and a clean, soft cloth or microfibre cloth. Do not use any abrasive cleaning pads or strong cleaning products containing ammonia, bleaches, alcohol, dyes, acids (hydrochloric, formic, phosphorus, or chlorine) as this could damage the product.

When using spray cleaners, spray the cleaning solution onto a soft cloth or sponge, never directly onto the products, as the atomised spray could enter openings and gaps and cause damage after cleaning rinse thoroughly with clean water to remove any cleaner residue.

Residues of toiletries such as liquid soaps, shower gels, shampoos, hair dyes, perfumes, lipstick, aftershave, and nail varnish can also cause damage, carefully clean these using the methods above.

Other care instructions:

- Angle valves (shut-off valves under the washbasin or bidet) and wall valves should be actuated once every quarter.
- Move thermostats once a month over the entire temperature range with the water flowing at full volume to ensure that the control cartridge continues to function correctly.
- To avoid heavy scale deposits we recommend that you clean them using a citric acid-based product.
- Rain showers, body sprays and rinsing sprays with an anti-scale system.
- Deposits on the plastic shower nozzles should be removed at regular intervals by rubbing gently over the raised areas. This achieves an ideal spray pattern and prevents malfunctions.

IW LSC.
Liquid Stone
Composite

For regular cleaning and maintenance, the majority of products can be cleaned with warm water, mild soap, and a clean, soft cloth or microfibre cloth. Only use cleaners and equipment that are suitable for the application. Never mix cleaners.

Matt Finish:

For stubborn stains and fine scratches on our matt finish LSC products, we recommend using a cream cleaner such as CIF or AJAX and the cleaning pad that came with the product and plenty of warm soapy water.

Repairing surface scratches and chips can be polished out using various grades of sandpaper depending on the depth of the scratch/chip. Once the scratch or chip has gone, you will need to smoothen it off using the fine grade side on the cleaning pad that was supplied with your product.

- DO NOT use concentrated bleach.
- DO NOT use Tar based shampoo.

Care & Maintenance

Polished Finish:

For light surface scratches on our polished finish LSC products, we recommend using a stone polishing kit that can be purchased from most major DIY stores. For deeper scratches and chips, contact your local IW supplier for further advice.

- DO NOT use scouring powders/pads or abrasive cleaners.
- DO NOT use vinegar, lemon juice or other cleaners containing acids.
- DO NOT use concentrated bleach.
- DO NOT use Tar based shampoo.

IW Sanitary Ware

The majority of products can be cleaned with warm water, mild soap, and a clean, soft cloth or microfibre cloth. Only use cleaners and equipment that are suitable for the application. Never mix cleaners.

A mild, commercially available sanitary cleaner is suitable for daily cleaning. The advantage of using gel cleaners is that they adhere well to the ceramic surface. Regularly clean the surface or clean immediately if soiled. Soiling e.g., residues of toiletries such as liquid soaps, shower gels, shampoos, hair dyes, perfumes, lipstick, aftershave, and nail varnish can also cause damage if not cleaned.

For stubborn stains, use a gel cleaner suitable for the application and wait a few minutes for the cleaner to take effect. Then rinse with warm water to remove all traces of the detergent.
